

Space Park Enology Club presents
Muscardini Cellars
Virtual food & wine pairing
with Italian wine specialist, Karen Hannah
Friday, May 17th at 7:30 pm, via Zoom

We are delighted to welcome back Karen Hannah of Muscardini Cellars. Karen is an Italian wine specialist, the Wine Club Director and the food and wine pairing expert for the winery. Karen is also a boutique winemaker herself, making expressions of lesser known Italian varietals such as Aglianico and Nebbiolo.

We last hosted a Muscardini Cellars virtual in April 2021 which had excellent reviews from our participants. You won't want to miss our May event, which will be a highly interactive wine and food pairing experience! Karen will lead us through an Italian-inspired flight of wines highlighting their current releases. You will experience the wines through an exciting new lens of a scavenger food and wine pairing hunt. We'll also explore the storied history of Muscardini Cellars' wines and the vineyards they have partnered with over the years that have built the Muscardini brand into what it is today.

Muscardini Cellars is located in the heart of Sonoma Valley (Valley of the Moon). They specialize in Italian-focused, limited-production wines. The mission of Muscardini Cellars is to culminate the knowledge, tradition and respect of more than a century of family experience in the industry with wines that artfully capture flavor and spirit.

Enhance your tasting experience by participating in the food/wine pairing "scavenger hunt!" See the event Tasting Notes for the list of food pairing ingredients you'll want to procure ahead of this event.
